

Python

Create and run python program

Saurabh Shukla (MySirG)

Agenda

- ① Write your first Python program.
- ② Using vs code

Write your first Program

First.py

```
print("Enter two numbers")  
a = int(input())  
b = int(input())  
  
c = a + b  
print("Sum is", c)
```

Using VS code

① Create source file using vs code

→ Open VS code

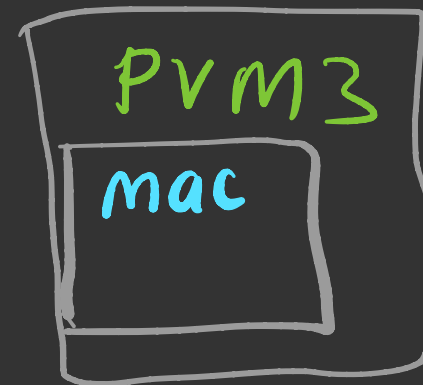

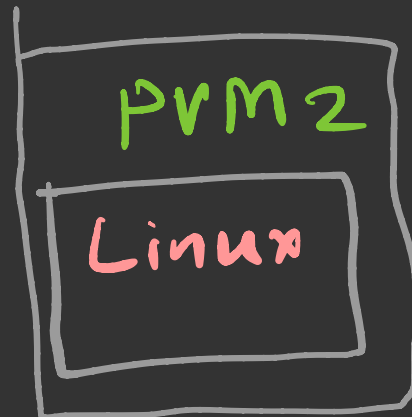

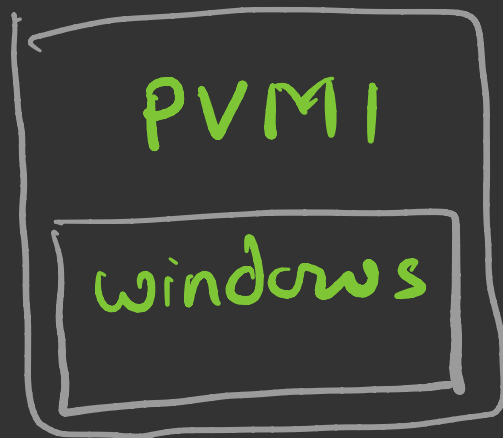

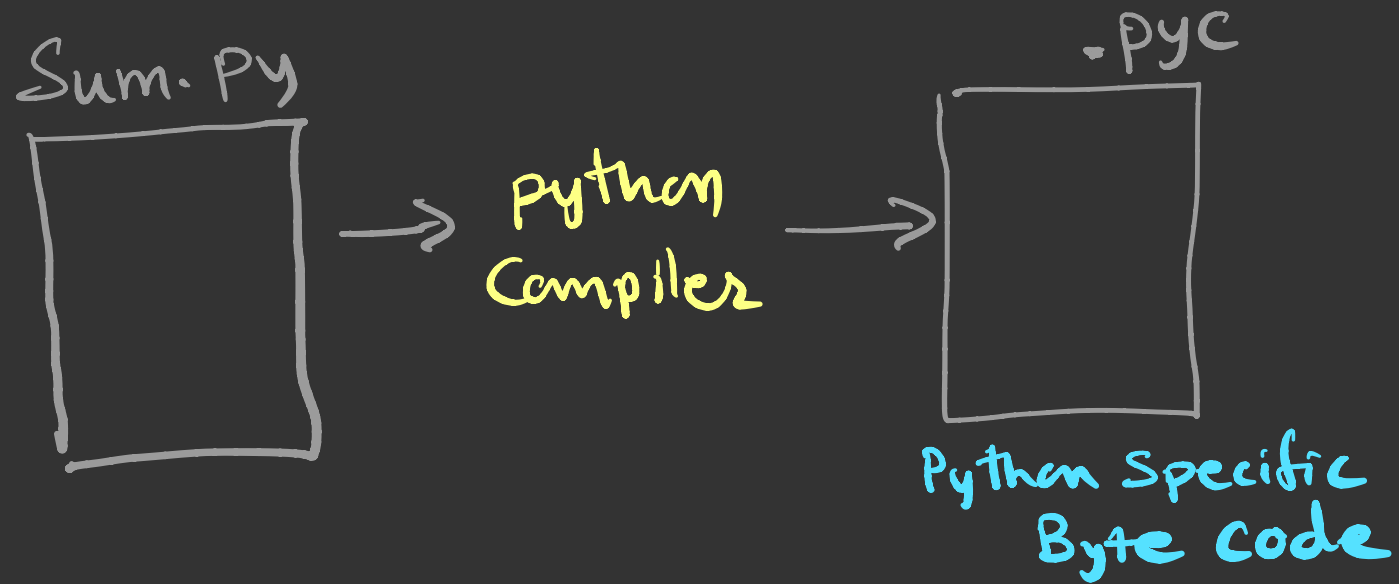

→ Create new .py file

→ Write program

② Run through vs code

→ Output will come on terminal

How to develop a software using Python?

How to create .pyc file?

① Automatically created for imported module

② using command

> python -m filename.py compile

> python -m compileall
